DOMA GLOBAL MISSIONS MENTORING PROGRAM

The DOMA Global Missions Mentoring Program helps churches begin the journey of supporting the work of evangelism around the world.

DOMA GLOBAL MISSIONS MENTORING PROGRAM

Since creation, God has been drawing all people to himself and he calls his followers to join him in that work. Yet many churches are not sure how to join God in something as large as his global and universal mission to rescue humanity. The DOMA Global Missions Mentoring Program helps churches begin the journey of supporting the work of evangelism around the world.

WHAT IS THE GLOBAL MISSIONS MENTORING PROGRAM?

The Global Missions Mentoring Program guides churches through the process of identifying a mission partner, developing a support network for the partner, and collaborating with other churches that support that same mission partner.

HOW DOES THE GLOBAL MISSIONS MENTORING PROGRAM WORK?

Identifying a Mission Partner: The DOMA Global Mission Initiative advocate, The Rev. Katie Hamlin, will work with the Society of Anglican Missionaries and Senders (SAMS) and Anglican Frontier Missions (AFM) mission agencies to identify cross-cultural workers (CCWs) that are raising supporters. Katie will send the CCW details to all the DOMA church mission contacts and will arrange a time for interested churches to learn more about each CCW's work.

Developing a Support Network: Once a church decides to partner with an AFM or SAMS CCW, Katie will work with the congregation to develop an appropriate partner support network, which can grow into a missions committee, if the congregation desires. Congregations will also be invited to develop a culture of care for their global mission partners and global missions generally.

Collaboration Support: Churches that support the same CCW will be invited to think about how they might do that collaboratively. This might involve praying together for their partner, creating a joint support network, and coordinating visits to and from the field. Katie is available to help churches think about the best approach to collaborative support for their CCWs.
